Description of Project: Conduct & document engineering damage assessments to beachfront erosion control structures, pools, & other identified structures under the terms of the SCDHEC-OCRM Beachfront Management & Regulations to determine the degree of damage present from storms & other causes & the recoverability / repairability of said structures. Erosion control studies shall be measured, photographed & compared to "pre-storm" conditions to determine whether the structure is damaged beyond repair. Tasks will be assigned to be conducted on an "as needed" basis, according to the specific requirements encountered. Expert witness testimony may be required. Three Indefinite Delivery Contracts will be awarded to three separate qualified firms for a period not to exceed two years from date of award. No guarantee of actual work is made. Total fees per contract shall not exceed \$300,000, excluding reimbursables. The professional may be subject to performance appraisal at close of project. Any questions concerning the terms & conditions of the proposed contract must be addressed to the Agency Coordinator listed below.

Anticipated Construction Cost Range: \$0.00 to \$300,000.00

Description of All Professional Services

Anticipated for Project: Firms selected must have fully qualified & licensed professional engineers (PEs) to perform the actual analysis of the assigned structures. PE disciplines must fall within the civil, coastal, & structural arena with an emphasis on structural capabilities desirable. Survey crews are not anticipated; however, some minor elevation shots may be required. Aerial reconnaissance & photography may also be requested. GPS / GIS background & capabilities will be necessary.
